In his direction, Andi Widjajanto said that he understood the upcoming challenges for Lemhannas RI in the future. According to him, these challenges are in the aspects of education, studies, nationalism, national resilience measurement laboratories, and organizational management. He insists these aspects to be consolidated.

In the education aspect, the biggest challenge is increasing the quota for education participants at Lemhannas RI. Andi Widjajanto conveyed that there are four major which are distinctive characteristics of Lemhannas RI education, namely provision of national resilience known as *asta gatra*, strengthening of national vigilance, knowledge of archipelago insights, and strategic leadership.

In the study aspect, Andi Widjajanto conveyed that the things that will be discussed and started next year are the blue economy and Papua. One other thing that will definitely be studied is also about ASEAN. While on the national

aspect, Lemhannas RI has become a reference center for government agencies from many existing organizations. "In Nationalism, I see that Lemhannas is relatively well established," he said.

Meanwhile, in the national resilience measurement laboratory aspect, there will be changes, especially in the methodology which will be significantly

End of Year Statement 2022 Governor of Lemhannas RI

JAKARTA - Governor of Lemhannas RI Andi Widjajanto gave a year-end statement as well as discussing possible risks that may occur in 2023 on Thursday (21/12) in the Syailendra Room, Astagatra Building, 3rd Floor, Lemhannas RI.

At the 2022 Year-End-Statement Press Conference, Andi Widjajanto said that in 2022, Lemhannas RI's studies will focus on five issues, namely consolidation of democracy, digital transformation,

green economy, blue economy, and development of Indonesia's News Capital City, Nusantara. Lemhannas RI has produced 42 studies or policy recommendations out of the five study focuses.

Furthermore, another study conducted by Lemhannas RI apart from carrying out the five studies directed by President Joko Widodo is to return to Bung Karno's mandate when establishing Lemhannas,

which is creating Lemhannas RI as a school of geopolitics. Therefore, Lemhannas RI observed the geopolitical dynamics that occurred, one of which was the Russian-Ukrainian war which significantly changed political dynamics.

Apart from that, Andi Widjajanto also said that Indonesia's position is in quadrant 4. Today the world is in a negative quadrant due to global friction, global fractures, and economic contraction which is in a negative quadrant 4. Therefore, Lemhannas RI as an institution that conducts strategic studies must think about a long-term strategy. "Currently we are still in quadrant 4 which is not ideal and even the worst quadrant of the 4 quadrants that might be predicted," the Governor of Lemhannas RI said.

Andi Widjajanto also mentioned that the task of Lemhannas is to devise and offer short, medium, and long-term mitigation strategies. This mitigation strategy is to make Indonesia and the world move to quadrant 1 which is more ideal when there is global stability, global economic growth, Indonesia's resilience is more resilient, Indonesia's economy is becoming more positive, and Indonesia can consolidate democracy, especially in the 2024 and 2029 elections. He also added that Indonesia should ideally move first to quadrant 2, then finally move to quadrant 1 together with the world.

At the End of the 2022 Press Conference, the Governor of Lemhannas RI was accompanied by Deputy Governor of Lemhannas RI Lieut. Gen. Mohamad Sabrar Fadhilah, Prime Secretary of Lemhannas RI Police Commissioner General Drs. Purwadi Arianto, M.Sc., Deputy for Strategic Studies at Lemhannas RI Prof. Dr. Ir. In identifying and formulating the title of the study, several steps have been conducted, namely identifying strategic issues based on the directives from the President of the Republic of Indonesia (blue economy, green economy, digital transformation, democracy consolidation, IKN resilience, energy crisis, food crisis, and financial crisis). This step is followed by asking for suggestions for titles from Senior Analysts, Senior Lecturers, and

He reminded the participants about the president's directive stating that Lemhannas RI is asked to continue conducting its studies until Eid Al-Fitr 2023.

The second point is regarding time series. Andi Widjajanto stated that the studies should be carried out repeatedly so that they can give scores on global and national indicators. He wants the score to be issued monthly or quarterly.

The next point is regarding Papua. This topic aims to offer ways to break the cycle of violence in Papua. For Papua study, Andi Widjajanto advised to assign a special team to carry out the study. "Until what we have produced at the end of last year can develop into a pattern in 2023," he concluded.
