**JAKARTA** - Chair of the Audit Board of the Republic of Indonesia (BPK RI), Dr. Isma Yatun, CSFA., CFA., had the opportunity to give a lecture to the participants of the Short Education Program Batch 24 (PPSA 24) with a presentation entitled "State Budget and Finance Accountability" on Monday (11/9), at Bhinneka Tunggal Ika Room, Third Floor of Pancagatra Building, Lemhannas RI.

"The realization of good governance actually starts from accountability, which includes public accountability," Isma Yatun stated starting her

Regarding external audits, BPK RI audits are the most important budget accountability mechanism in public financial management because publication of the results of BPK audits can increase transparency of the entire state financial management system. In

addition, the process of following up on BPK audit results by entities is a crucial factor for creating sustainable improvements in the quality of public financial management.

Dr. Isma expressed her wish while concluding her presentation that the knowledge and experience shared to PPSA 24 participants would be useful and serve as inspiration for them to keep improving and be more accountable in carrying out their duties and roles in their respective institutions.
