In the FGD, the Governor of Lemhannas RI raised the topic of TNI Involvement in Counter Terrorism Handling. "Terror is a method, so that its background, organization, purpose can

According to the Governor, taking action against acts of terrorism that occur abroad is the duty and role of TNI in the

form of military operations. Meanwhile, the prosecution of acts of terrorism that occur in the jurisdiction of the domestic national jurisdiction is the duty of law enforcement officers in the criminal justice system. However, the Governor see that there are no clear and explicit boundaries regarding the role of TNI and Polr (The Indonesian Police) in counter-terrorism. It provides an opportunity to determine the limits of authority between TNI and Polri in counter terrorism.

At the end of his presentation, the Governor underlined that efforts to suppress terrorism require a consistent response from law enforcement by law enforcement officers. The efforts to deal with terrorism are currently quite effective by the Police. The governor also added that the role of TNI in handling counter-terrorism can be interpreted to deal with acts of terrorism that occur outside the jurisdiction of national law.
