President Joko Widodo Inaugurates Dr. Andi Widjajanto, S.Sos., M.Sc. as Governor of Lemhannas RI

President of the Republic of Indonesia Ir. H. Joko Widodo inaugurated Dr. Andi Widjajanto, S.Sos., M.Sc. as Governor of Lemhannas RI on Monday (21/2) at the State Palace, Jakarta. The inauguration was based on the Presidential Decree Number 21/P of 2022 on the Inauguration of Governor of Lemhannas RI, issued by the President on 21 February 2022.

During the oath-taking ceremony, Governor of Lemhannas RI swore that he will uphold the 1945 Constitution of the Republic of Indonesia and follow the laws and regulations as his dedication for the nation and country. During his incumbency, he will also uphold work ethics, professionalism and sense of responsibility.

On the press conference after the ceremony, Governor of Lemhannas RI conveyed the President's order for the Governor to strengthen Lemhannas RI's transformation to face the geopolitical

challenge of the 21st century. "To facilitate Lemhannas RI to carry out the duties as an educational institution to create national leaders and, as a research center for the President to study local, regional, and international issues, and as an institution to conduct the strengthening of national values programs," said Governor.

The inauguration ceremony was conducted with strict health protocols and attended by only several invitees, including Vice President, Coordinating Minister for Politics, Legal, and Security Affairs, Coordinating Minister for Economic Affairs, Minister of State Secretary, Minister of Trade, Ministry of Agriculture, and Prime Secretary of Lemhannas RI.

After the inauguration ceremony, Governor of Lemhannas RI proceed to come to Lemhannas RI to attend the handover of Lemhannas RI's Governor Memorandum at Nusantara II Room, Trigatra Building, Lemhannas

RI. Governor of Lemhannas RI was welcomed by structural and functional officials of Lemhannas RI. The Lemhannas RI's 2016 – 2022 Governor Memorandum was handed over by Acting Governor of Lemhannas RI Air Marshal Wieko Syofyan to Governor of Lemhannas RI.

As ordered by President Joko Widodo, the action taken by Governor of Lemhannas RI is to conduct Lemhannas RI's transformation. It is hoped that the function and duties of Lemhannas RI are more relevant to facing the challenges of

Indonesia towards 2045. "Transformation is necessary in increasing the benchmark, so that the achievement goals of Lemhannas RI are higher," said Governor.

On that occasion, Governor expressed his appreciation to all personnel of Lemhannas RI for their great dedication at Lemhannas RI. "I would like to thank you for all your hard work from 2016 to 2022, so that my duties as Governor of Lemhannas RI are relatively easy. May God always guides us at Lemhannas RI," he concluded.

The handover of Lemhannas RI's Governor Memorandum was conducted in a hybrid method. The onsite ceremony was attended by Deputy Governor, Prime Secretary, Deputy Coordinator for Senior Lecturers, Senior Analysts, and Professional Experts, Deputy for National-Level Leaders Education, Deputy for Strengthening of National Values and Heads of Bureaus of Lemhannas RI. Other officials and personnel of Lemhannas RI attended the ceremony online.

Governor of Lemhannas RI Attends Public Seminar of Defense Technology Faculty of Unhan

Governor of Lemhannas RI Andi Widjajanto was among the speakers at the Public Seminar of the Defense Technology Faculty of the Indonesian Defense University (Unhan) titled "Implementation of the Defense Acquisition System for the Offset Program Optimisation to Accelerate Technology Independence and Defense Industry" on Tuesday (22/2/2022), online.

On this occasion, Governor of Lemhannas RI stated that weaponry dynamics were uncertain. According to him, there are fluctuations in arms market conditions that must be faced. Within a certain period of time, the conditions of the arms market are uncertainly ideal for offset or technology transfer. If producers are in the exceedingly strong side, it will be difficult for consumers to demand

requirements for weapons acquisition. On the other hand, when producers are in a weak position and consumers are in a strong position, it is the ideal point for offset or technology transfer.

For offset to be fulfilled, Governor considered that we must carefully observe the arms market which is influenced by a variety of factors. We also have to consider how the defense economic strategies are formulated by the government until 2024 and hope that a sustainable defense economic strategy will soon develop for

the next 20-30 years.

Other speakers present at the seminar were Expert Staff of the Defense Industry Policy Committee (KKIP) for Defense Industry Cooperation Division Makmur Keliat Ph.D., Dean of the Defense Technology Faculty of Unhan Rear Admiral Dr. Kasih Prihantoro, S.E., M.M., M.Tr. (Han) who gave the opening speech, and Permanent Lecturer of the Defense Technology Faculty of Unhan Pasis Seskoau A-59 TP 2022 Major Tek Y.H. Yogaswara, Ph.D.

The General Chair of PBNU Receives a Visit from the Governor of Lemhannas RI

Chairman of the Executive Council of Nahdlatul Ulama known as PBNU KH Yahya Cholil Staqf received a visit from the Governor of Lemhannas RI Andi Widjajanto who was accompanied by Deputy Governor of Lemhannas RI Air Marshal Wieko Syofyan and Prime Secretary of Lemhannas RI Police Commissioner General Drs. Purwadi Arianto, M.Sc. on Thursday (24/2/2022) at the PBNU Office, Jakarta.

The visit aimed at discussing concrete cooperation between the two institutions in maintaining and strengthening Indonesian national insight in facing various national dynamics and challenges in the future.

The General Chairman of PBNU said that PBNU is very open to in-depth

discussions about various things that can be done together between PBNU and Lemhannas RI. "PBNU and Lemhannas RI have the same responsibility and concern related to preserving national insights," he said.

The General Chairperson of PBNU hopes that in the future, Lemhannas RI and NU can actually build a positive relationship, so that they can synergize in maintaining the integrity of Indonesia as a nation and state.

With the same view, the Governor of Lemhannas RI sees that the similarity of the strategic mission to strengthen national values and the evolution of Islamic thought and movement in Indonesia which is in line with the principles of the national state are the main reasons underlying the cooperation between the two institutions, Lemhannas RI and PBNU. "Of course, there is great hope that Lemhannas RI and NU will have closer cooperation. We really need a strategic contribution from PBNU," he concluded.

Governor of Lemhannas RI as Speaker for RTD of Doctoral Program Unhan

Thu, February 24th 2022

Governor of Lemhannas RI Andi Widjajanto was present as a speaker at the 2nd Round Table Discussion (RTD) of the Indonesian Defense University (Unhan) Doctoral Program for Hasto Kristiyanto who discussed the title “Discourse on Sukarno’s Geopolitical Thinking and Its Relevance to National Defense” on Thursday (24/2/2022) online.

“Essentially, the defense doctrine formulated by Bung Karno still adheres to the universal defense principle and the people’s defense principle,” said Governor. According to him, the two terms tend to remain unchanged from 1945 to the present, apart from different names that are possibly given to them.

Furthermore, Governor stated that during the Soekarno’s rule, the evolution of Indonesian National Armed Forces operations could be studied in three political momentums in Indonesia, namely period of the War of Independence (1945-1949), period of Parliamentary Democracy (1950-1959), and Guided Democracy Regime (1960-1965). Governor of

Lemhannas RI was of the opinion that, in general, military operations during that period were dominated by the struggle against aggression and rebellion as well as separatism.

The period of struggle to defend Indonesia’s independence and anti-colonialism in various countries also greatly influenced Sukarno’s geopolitical thinking. Emphasizing this subject, Governor of Lemhannas RI argued that the geopolitical thinking during the Soekarno’s rule was the answer to the cold war conflict between the US and the Soviet Union.

However, regarding the defense posture, the procurement of Indonesian defense equipment under Sukarno’s rule was dominated by imports from the Soviet Union. The massive procurement of defense equipment during the Sukarno era resulted in Indonesia being called the Asian Tiger. During this period, the two most widely acquired arms systems were warships and fighter aircraft. This is in accordance with the geopolitical condition

in which there is a need for Indonesia to defend its archipelagic territory.

According to the Governor, providing that Indonesia’s combat squadrons are still lacking, Indonesia’s strategic vulnerability will stay high. “In my opinion, this is what Bung Karno warned with his geopolitical thinking which then, among other things, established Lemhannas RI,” stated Governor of Lemhannas RI. Moreover, one of the characteristics of today’s geopolitics is that politics can no longer be said to have boundaries. “What happens at one point in the world will directly affect Indonesia,” said the Governor.

An example may be seen from the impact of the conflict between Russia and Ukraine. The conflict is likely to have an impact on Indonesia with an increase in energy commodity price. As widely known, Indonesia imports crude oil from Ukraine and some power plants in Indonesia use fuel oil. Therefore, it is feared that the conflict will escalate the price of crude oil which will be followed by the soaring rate of electricity prices.

The Governor of Lemhannas RI Visits the National Library of Indonesia

Thu, February 24th 2022

The Governor of Lemhannas RI Andi Widjajanto paid a visit to the National Library of Indonesia on Thursday (24/2). The visit was one of a series of visits aimed at maintaining institutional relations with a number of institutions at the beginning of his duties as Governor of Lemhannas RI.

Accompanied by the Deputy for National Level-Leaders of Lemhannas RI, Maj. Gen. Sugeng Santoso, SIP, Chief of the Legal and Cooperation Bureau of Lemhannas RI Brigadier General (Mar) Purwadi, M.Tr (Han), Chief of the Public Relations Bureau of Lemhannas RI Brigadier General A. Yudi. Hartono, S.Sos., MM, M.Han., Chief of the Telematics Bureau of Lemhannas RI First Marshal Mohammad Syafii, SIP, MM and the Associate Librarian of Public Relations Bureau of Lemhannas RI Suparmo, S.A.P., M.Sc., the Governor was welcomed directly by the Head of the National Library of Indonesia Muhammad Syarif Bando at the National Library of Indonesia Office located next to Lemhannas RI.

The visit aimed at strengthening the cooperation between Lemhannas RI and the National Library of Indonesia. "The point is that we, at Lemhannas RI, rely on the National Library of Indonesia to help

our education participants get the latest references so, in enrolling the education program, their insight can be strengthened. It is expected that the working relationship between Lemhannas RI and the National Library of Indonesia will be strengthened," the governor said.

The Governor continued, that in the education process, references are urgently needed, especially those at the strategic level and it can be found in the National Library of Indonesia. "Because basically, Lemhannas RI education program does not only want to create lecturers or researchers, create Military Area Command, Director General, Secretary General, but it must still be supported by

a theoretical conceptual understanding and strong data, and the data comes from here," he explained.

In response to this, the Head of the National Library of Indonesia stated that the services at the National Library of Indonesia provide data and references both in printed and digital forms. Therefore, he also stated his readiness to support the data and referral needs for education participants of Lemhannas RI. "We really want to help the governor with what can we do with all the limitations. If you already have a membership card, we will guide you to enter our online journal," he concluded.

The Governor of Lemhannas RI: Advocates Must Hold the Constitution

The Governor of Lemhannas RI Andi Widjajanto gave a Lecture on Strengthening of National Values Program for the Advocate on Thursday (24/2/2022) via online. Starting his lecture, the Governor said that essence of democracy its values and laws. Without values and laws, democracy cannot work.

Furthermore, the Governor also said that democracy does produce a government with a high degree of freedom. Highlighting this, according to him, democratic countries that always show a high degree of freedom in the democratic era, were formed through a shared awareness to use the value of the legal framework as a reference in carrying out various activities. "Democracy will only settle in a country based on the rule of law, without it, it will not run. There is no democratic country who is not based on law," he said.

One of the important things in strengthening the existence of institutions,

according to the Governor, is to make the law as the foundation of politics. According to him, it will be difficult to consolidate democracy, if the law is not used as the foundation. Therefore, the Governor considers that democratic consolidation is urgently needed towards Indonesia in 2045. With the consolidation of democracy, the role of the institutional approach and legal approach is very important. Without the existence of institutions and normative framework that encourage social contracts such as law, it is impossible to build democratic consolidation. "It takes awareness that the law should be the main corner not only in resolving cases, but to help establish the foundations of good norms in various sectors," said the Governor.

On that occasion, the Governor also said that one of the challenges faced by Indonesia is terrorism. The facts show that the death toll from terrorism tends to decrease. However, it did not mean that terrorism and its terror groups no longer

existed in Indonesia. He views that the Strengthening of National Values can be one of the answers to overcome them. "One of the answers is with National Values," the Governor said.

"The center of terrorism is ideology. As long as the ideology exists, as long as there is a desire to establish another form of state in Indonesia, and it legitimizes the violence that sows fear and terror, then we must always be vigilant about the possibility of the re-emergence of terror groups which then carry out terror attacks that cause death," the Governor continued.

Regarding to this, The Governor asked to internalize national values according to the profession and character of the participants who are Generation Z.

"I expected, both DPN Indonesia and FHP Law School, become the front row in assisting the Strengthening of National Values" he concluded.

Scientific Speech by Governor of Lemhannas RI at the Graduation Ceremony of Profession, Specialist, Master, and Doctoral Programs of the University of Indonesia

Governor of Lemhannas RI Andi Widjanto gave a Scientific Speech at the Graduation Ceremony of the Profession, Specialist, Master, and Doctoral Programs of the University of Indonesia with the title “Higher Education and National Independence” on Friday (25/2/2022) online.

Starting his scientific speech, Governor reiterated the words of the President of the Republic of Indonesia that warned the rise of a mass war with new characters. This issue was conveyed by the President of the Republic of Indonesia

in the mandate of the 75th anniversary of the Indonesian National Armed Forces, emphasizing that future wars will be technology-oriented with the possibility of a large destructive impact.

Future wars will be considerably short because armies use advanced technologies capable of designing short battles that can determine the course of the entire war. It is also estimated that future wars will be complex and characterized as joint operations. “Future wars will not only in the forms of military tactics, but will also be related to economic, social, political and ideological battles, as well

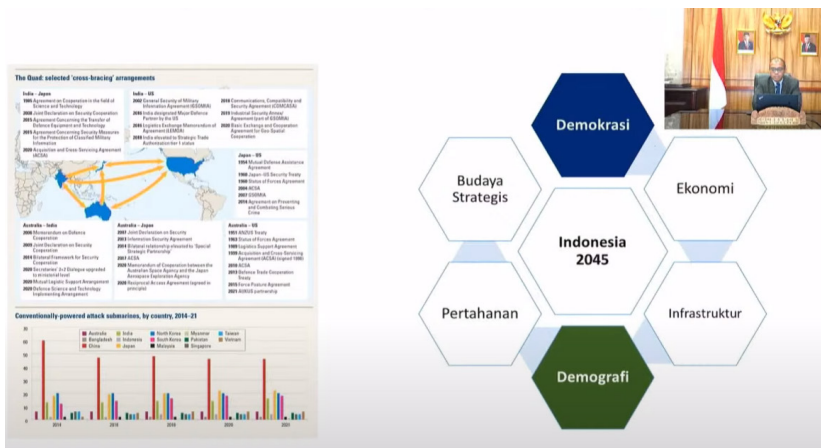

as battles in digital spaces in the form of hybrid wars,” stated Governor.

Emphasising this scenario, Governor views that Indonesia must make several strategic policy steps so that Indonesia is ready for Indonesia 2045. He also emphasized that all parties must think comprehensively, complexly, collectively, and look for methods to strengthen democracy, strengthen economic growth, accelerate infrastructure distribution, take advantage of demographics bonus, modernize and transform defense, and strengthen strategic culture so that the interests of the nation will stay relevant to the latest developments in the 21st century towards the 22nd century.

Therefore, Governor highlighted the importance of universities to continue to carry out the Tri Dharma, namely Education and Teaching, Research and Development, and Community Service. This point is expected able to prepare Indonesia to carry out major variable transformations so that Indonesia can project its strengths. “This is the point at which the important role of universities such as the University of Indonesia is to always carry out the Tri Dharma of education,” he said.

Data shows that there is a tendency for Indonesia to succeed in mitigating terror. However, Indonesia must not be negligent because terror attacks might be modified into new movements and wait for opportunities when ideological resilience weakens. “The role of universities, such as the University of Indonesia, to be central to understanding nationalism, can and always will be very relevant to be strengthened starting from education, from lower levels to higher education levels,” concluded Governor of Lemhannas RI.

The Governor of Lemhannas RI as a Speaker at the Bakomubin National Conference

Sat, February 26th 2022

The Governor of Lemhannas RI Andi Widjajanto also attended as a speaker at the National Conference of the Coordinating Body for Indonesian Muslim Preacher (Bakomubin) on Saturday (26/2/2022) at the Aryaduta Hotel, Jakarta.

On this occasion, the Governor of Lemhannas RI again highlighted what was conveyed by the President of the Republic of Indonesia during the 75th anniversary of the Indonesian Armed Forces on October 5, 2020. The President of the Republic of Indonesia at that time gave a warning as well as a duty to the Ministry of Defense and the Indonesian Armed Forces to anticipate future wars.

The Governor said that currently conflicts in any region have an impact on Indonesia. "For Indonesia, we can no longer say that what happens in other regions has no effect on Indonesia," he explained. The governor set an example through the conflict between Russia and Ukraine. According to him, if the conflict is prolonged it will affect the price of fuel in Indonesia.

Observing the situation, the Governor conveyed that to reach Indonesia 2045, a complex mindset is needed. In line with this, the role of muslim preachers will be very relevant to include in several variables such as democracy, economy, infrastructure, demography, defense, and strategic culture. "Among other things, through National Values that are in line, even strengthened, with religious values," he said.

The governor saw that there were two main problems faced by Indonesia, namely separatism and radical ideology that caused acts of terror. He explained about acts of terror, where acts of terror are not identical with a particular religion. "This act of terror arises because there are exclusive groups who try to monopolize the truth and do not hesitate to carry out acts of violence that cause fear to achieve their goals. That is terror and can be carried out by various groups," he said.

According to the Governor, it is a joint task to overcome the center gravity of terror. In the study of terror, the center

gravity of terror is neither the organization nor the leader, because even if the organization changes and the leadership changes, acts of terror will still exist. "The center gravity of terror is an ideological belief, a monopoly of truth which then legalizes violence to spread fear," he said. As long as the center gravity of terror cannot be overcome, then as long as it is also the act of terror will continue.

In this regard, the Governor emphasized that the role of muslim preachers and religious leaders is important. In view of the memorandum of understanding between Lemhannas RI and Bakomubin, the Governor invited all participants to join, collaborate, and help each other to strengthen National Values, especially in communities in need. "Don't water the garden when it's raining, look for a garden that need more water because it hasn't rained for a long time. Look for communities whose national values have been eroded for various reasons and then try to be replaced by other values," he concluded.

Governor of Lemhannas RI Receives Courtesy Call of KADIN Indonesia

Tue, March 1st 2022

The management of the Indonesian Chamber of Commerce and Industry (KADIN) paid a courtesy call on Governor of Lemhannas RI Andi Widjajanto on Tuesday (1/3/2022) in the Executive Guest Room, Lemhannas RI.

During the courtesy call, present Secretary of Law Enforcement, Defense and Security Relations Agency KADIN Indonesia Junaidi Elvis, Deputy Head of Law Enforcement Relations Agency KADIN Indonesia Reginald FM Engelen, Head of Relation between KADIN Indonesia and Lemhannas RI Amran Nukman, Deputy Head of Relation between KADIN Indonesia and Lemhannas RI Indra Yuwana, and Deputy Head of Relation between KADIN Indonesia and Lemhannas RI Dian Natalia.

Previously, Lemhannas RI and KADIN Indonesia had formed a Memorandum of Understanding for the period 2021-2026. Now, KADIN Indonesia views more issues that can be synchronized between the two institutions. According to KADIN Indonesia, the existing memorandum of understanding is still valid, but there are new ideas, so the memorandum of understanding can be renewed.

KADIN Indonesia also stated that within the new structure of KADIN Indonesia there is a special division, namely the Division of Relation with Lemhannas RI. This division is under the Law Enforcement Relations Agency of KADIN Indonesia. The purpose of the establishment of this division is to maintain

cooperation between the two institutions.

“With the team in the Division of Relation of KADIN Indonesia with Lemhannas RI, it is hoped that there will be future strategic studies in the business sector, so that the 2045 target can be in line, everything is in mind with KADIN Indonesia as the agent,” said KADIN Indonesia.

In response to this, Governor of Lemhannas RI advised that at the beginning of each year, the two institutions can hold a discussion to decide the focus of issue for discussion. Some issues that might be of important to be discussed

are energy, food, green economy, and blue economy issues. Another issue that is considered appealing to be discussed between Lemhannas RI and KADIN Indonesia is the study of State Capital. “It would be great if, for example, later we establish a working paper of Lemhannas RI and KADIN Indonesia,” said Governor.

Also present at the courtesy call were Head of Cooperation and Legal Bureau Brigadier General (Mar) Purwadi, M.Tr (Han) and Head of Public Relations Bureau Brigadier General A. Yudi Hartono, S.Sos., M.M., M.Han.

The Governor of Lemhannas RI Andi Widjanto received a Courtesy Call from the Central Executive Board of Lemhannas' Alumni Association (DPP IKAL) which was led directly by the General Chairman of IKAL General (Ret.) Agum Gumelar, M.Sc. on Wednesday (2/3/2022) in the Executive's Guest Room, Lemhannas RI.

On that occasion, the Governor of Lemhannas RI conveyed three directives conveyed by the President of the Republic of Indonesia to be followed up. First, carry out the transformation of Lemhannas RI so Lemhannas RI will be relevant to current developments, especially the development of digital world.

Second, for strategic study, Lemhannas RI is directed to conduct a study on the resilience of the New National Capital City. Another study that is expected is about the basic substance of Lemhannas RI, such as Pancasila. This study discusses that Pancasila is a

dynamic ideology that remains relevant to developments. "Don't let our younger generation see Pancasila as an old document," the Governor said.

Third, Lemhannas RI is expected to make a geopolitical projection of Indonesia 2045, so that Indonesia becomes a major power in 2045. "With my limited experience, of course, what we produce will be much richer if there are more intense communication between us at Lemhannas RI and Pak Agum Gumelar with IKAL network," the Governor concluded.

Responding to what was conveyed by the Governor of Lemhannas RI, the General Chairman of IKAL who was accompanied by Deputy General Chairman I Dr. Ir. Mustafa Abubakar, M.Sc., Deputy General Chairperson II Police Commissioner General (Ret.) Drs. Togar Manatar Sianipar, M.Sc., Secretary General Air Marshal (Ret.) Daryatmo, S.IP., Head of IKAL Strategic Center Prof.

Dr. der Soz. Gumilar Ruliwa Somantri, and the Head of IKAL TV Dra. Ida Parwati, assessed that those directives were very noble.

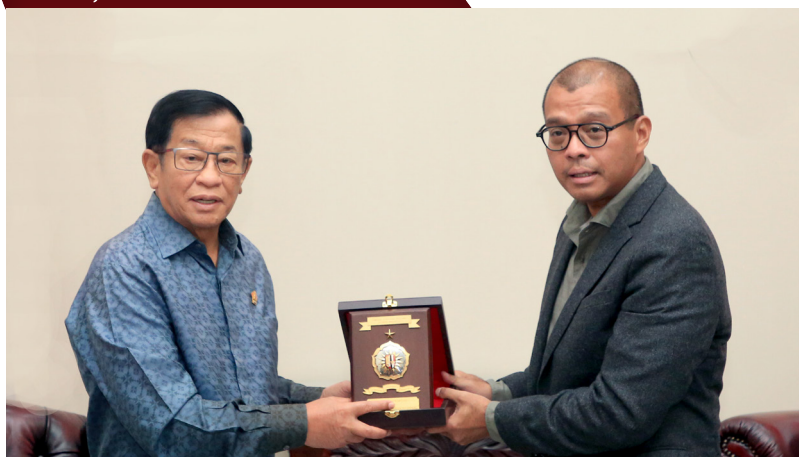

"There is no other word for us, IKAL, I think we have to help," the General Chairman of IKAL said. Furthermore, He said that IKAL currently has an IKAL Strategic Center. IKAL Strategic Center conducts an assessment of any problems in the political arena with strategic value.

Currently, IKAL has 34 Regional Management Councils (DPD) and also has a Leadership Council (DPA), both from regular education and short education programs. The Alumni of the Strengthening of National Values Programs are currently also incorporated as extraordinary members, which aims at controlling the activities carried out. Therefore, there are two characters that are always emphasized to each IKAL member. The first is a warrior character, meaning that he always cares about the development of the nation's situation and condition. Second is the vision of statesman which means that all thoughts and actions are oriented to the interests of the nation and state. "For such characters, we try to contribute and hold on and believe that in this beloved country, in this beloved republic, there will never be a leader, a president who wants his people to be miserable," the General Chairman of IKAL said.

Also present at the courtesy call were Deputy Governor of Lemhannas RI Air Marshal Wieko Syofyan, Deputy for National-Level Leader Education at Lemhannas RI Major General Sugeng Santoso, SIP, Deputy for Strengthening of National Values Real Admiral Prasetya Nugraha, ST, M.Sc., and Chief of Public Relations Bureau Brigadier General A. Yudi Hartono, S.Sos., MM, M.Han.

The Governor of Lemhannas RI Attends the Air Force Executive Meetings

Fri, March 4th 2022

The Governor of Lemhannas RI Andi Widjajanto was one of the speakers at the Air Force Executive Meeting on Friday (4/3/2022). On that occasion, the Governor conveyed the scenario for Indonesia 2045.

According to the Governor, if you want to prepare development and planning scenarios, Indonesia must prepare itself with various variables complexities. In this preparation, Indonesia must pay attention to the dynamics of the strategic environment, such as paying attention to the form of the 21st century war and the shifts that must be anticipated in Indonesia and preparing scenarios.

"We have talked about Indonesia's

strategic position which is flanked by two oceans and also two continents, if we can't project our strength, that strategic position will immediately turn into strategic vulnerability," the Governor said. Furthermore, he also emphasized that it is the duty of all parties to ensure that these strategic vulnerabilities do not occur. In this case, Lemhannas RI itself is responsible with ensuring that these strategic vulnerabilities can be overcome by increasing the concept of national resilience through the aspects (gatra) in national security.

The Governor, again emphasized the mandate of the President of the Republic of Indonesia in the 75th Anniversary of the Indonesian Military at

the Ministry of Defense-The Indonesian Military Executive Meeting in 2021. "At that time the President of the Republic of Indonesia warned us that future wars might have new form, have changed forms, and This is very, very suitable as a future challenge for transformation," he said.

The new form referred to by the Governor of Lemhannas RI is that future wars will be based on technology. According to him, technology-based war has a very high destructive power. It could be said that one battle could instantly determine the outcome. Therefore, technology in defense must be strictly observed.
