# Agus Widjojo addresses online Webinar to commemorate 76<sup>th</sup> Anniversary of PETA Awakening

**G**overnor of Lemhannas RI Lieut. Gen. (Ret.) Agus Widjojo attended the webinar conducted by Yayasan Pembela Tanah Air Pusat (Central Homeland Defenders Foundation or PETA) via online on Monday (14/2). According to Agus, the webinar is relevant to remind us and reflects the patriotic values contained in history of Indonesia in facing current nation's challenges.

Agus described history as roots of a tree which grows into a strong big tree. In line with this, the growth and life journey of a nation cannot be separated from the history of its formation. "Therefore, understand and preserving history in the collective memory of the Indonesian people is an important drive for safeguarding and taking care the life of the nation so that it continues to grow, develop and become stronger," Agus said.

The presence of PETA cannot be removed from the historical record of the journey of the Indonesia's struggle, especially in the struggle to escape

from the shackles of colonialism. Agus also said that as an organization, PETA was a resistance community formed by the Japanese (colonial) government as an armed resistance guard to assist the Japanese army in defending the Indonesia's islands, which at that time was still a Japanese colony from the re-invasion of Allied forces. At that time, PETA had the patriotic spirit to defend Indonesia from being re-colonized by Europeans.

After the proclamation of Indonesia's independence, on August 19, 1945, the Japanese government dissolved the PETA organization. It was due to the defeat of Japanese troops from the Allied forces which also marked the end of colonization throughout Indonesia.

Since that day, PETA was no longer exist as a resistance organization againsts the colonialism. "However, young people who at that time were members of the PETA still have a patriotic spirit, love Indonesia as a nation and state," Agus said.

The historical record of the struggle of the Indonesian people against and expelling colonialists for more than three and a half centuries had shown patriotic values that should receive high respect. Agus said that the historical values of the struggle are essentially the roots for the growth, and the development of strong Indonesia's national "tree". Meanwhile, patriotic values extracted from the historical process of the struggle for the independence of Indonesia as nation and state, can be used as lessons for all generations of this nation.

On this occasion, Agus hopes that the commemoration of PETA's Awakening will not only be filled with protocol events, but also conducted in a long-distance meeting discourse activities. According to Agus, a wide variety of approaches and perspectives on the history of PETA is important. "We have to be loyal to listen to these different perspectives to take lessons and not just to be commemorated in protocol events," Agus said.

**G**overnor of Lemhannas RI Lieut. Gen. (Ret.) Agus Widjojo attended the Opening Ceremony on Online Strengthening National Values Program for Ikatan Alumni Institut Teknologi Bandung (Alumni Association of Bandung Institute of Technology of ITB) Batch I of 2021 of Lemhannas RI on Monday (15/2). The strengthening program which was held for a week was followed by 97 ITB Alumni.

Agus said in his remark that currently, the decrease in understanding Pancasila values as a guidance on social, nation, and state life has made public easily provoked and divided by irresponsible parties.

Therefore, according to Agus, understanding on national values is seen very important to be implemented, internalized, and disseminated to the public so national service spirit can increasingly be intensified while at the same time strengthening the unity and maintaining the integrity of the nation.

According to Agus, ITB Alumni who has spread in various regions in

Indonesia, has held strategic position in government structure, State-Owned Enterprises (BUMN), and private sector. Although they have joined the ITB Alumni Association, there are still differences among its alumni such as differences in academic disciplines, differences in social life, differences in individual experiences, and differences in quality on national values. "ITB Alumni Association is a forum to unite intellectuals graduated from Institute Technology Bandung," Agus said.

Agus stated that it is very appropriate for the ITB Alumni Association to attend this online strengthening national values program to create equal point of views and strengthen understanding related to national values originated from four basic consensus of the nation namely Pancasila, The 1945 Constitution, Bhinneka Tunggal Ika (Unity in Diversity), and NKRI (the Unitary State of the Republic of Indonesia).
